

Quality Statement

For Spunflow QN and QE cartridges

Spunflow QN and QE cartridges are manufactured in a purpose built facility within a controlled environment.

Materials of Construction

All components of the cartridge are manufactured from materials suitable for contact with food and conform to the relevant requirements of the United States FDA code of Federal Regulations Title 21 Part 177 "indirect food additives: Polymers and Biological Safety per current USP Class IV - 121°C Plastics.

The filters also meet the dh Technologies Ltd quality control and assurance standards. dh Technologies Ltd has an independently certified BS EN ISO9001:2000 quality management system.

A handwritten signature in blue ink that reads 'Steve Crewe'. The signature is fluid and cursive, with a long horizontal stroke extending from the end.
