

Product specification and dimensions

Condensate drain Serie TIMEDRAIN Type TRAP-AZ

Electronic timer controlled condensate drain

Timer

Interval time	0.5 - 45 minutes, adjustable
Discharge time	0.5 - 10 seconds, adjustable
Supply voltage options	12 - 380 VAC/DC, 50/60 Hz
Current consumption	4mA maximum
Operating temperature	-40° C to +55° C
Environmental protection	IP 65, NEMA 4 when installed
Housing material	ABS plastic FR grade
Connection	43650ADIN ISO 4400
Indicators	1 LED (yellow) indicating ON 1 LED (yellow) indicating OFF

Valve

Type	2/2 way direct acting
In/out ports	1/8", 1/4", 3/8" & 1/2" BSP or NPT
Pressure range	0 - 16 bar g (For higher pressures consult pure!)
Temperature range.	2° C/55° C ambient
Medium temp.	Max. 55° C
Valve body	Brass, orifice 4.5 mm (stainless steel available) 12 -
Supply voltage options Coil	380 VAC/DC, 50/60 Hz (100% ED)
Insulation Grade	H-grade
Environmental Protection	IP 65
Valve seal	FPM
See coil for correct voltage	Voltage tolerance +/- 10%
